

PRITHIVI SHRESTHA

Prithivi Shrestha is a resident of Vyas Municipality, and currently a Surveyor at Rapti Municipality. He is a Geomatics Engineer and is incredibly interested in web mapping, surveying, land use planning, and environmental management. He is a former DRR Fellow at Rapti Municipality and has an experience of working in hydropower, transmission line survey and academic sector.

Prithivi completed his bachelor's degree in geomatics engineering from Kathmandu University, Nepal. The land disputes seen between the neighbors and families, border issues of countries, slow development rate of the development of infrastructure like hydropower, roadways, bridges, and improper land management system seen from the local level drove him to join Geomatics Engineering. He completed his intermediate in science (+2) from Trinity International College, Kathmandu and school level from Vyas Divya Jyoti Boarding School, Tanahun.

Prithivi is excited to give back to the community. He wants to pursue his future career in geospatial domain and wants to work to bring change to the community. He served as a DRR Fellow of Youth Innovation Lab working at Rapti Municipality, Chitwan for five months also worked as a geomatics engineer at CE Construction and Intern Geomatics Engineer at Tanahun Hydropower Project, Tanahun. He has been also involving in field surveying activities in various organization and NGOs.

Being a social worker, he is also involved in Rotaract and a PHF recipient. He loves to serve the people for their personal and professional growth. Apart from this, he loves to spend his leisure time listening to instrumental music, making new connections, and getting involved in research activities.
